Attention: Health & Human Services

Subject: Licensing and Medicare/Medicaid Reimbursement

Dear Dr. Clark Mangi
Asst. Director-Reimbursement Programs:

I have received your letter about the new requirements on the Medicare/Medicaid reimbursement, and the education needed to treat patients. I currently have five Physical Therapy Assistants, three bachelor degreed Physical Therapists, and one Master's degreed Physical Therapist.

As of now I am not in compliance being that I have five Physical Therapy Assistants. I understand that you require a minimum of a bachelor's degree with the supervision of a Masters in Physical Therapy, to assist patients receiving Medicaid/Medicare.

I will inform my employees as soon as possible of the changes being made, and I will do my best to fulfill your requirement so that our patients are well taken care of.

Sincerely,

Director of Human Resources
